ADJUSTABLE DRAIN GUARDS

Aluminum Adjustable Drain Guard

Our Aluminum Adjustable Drain Guards are a fast, flexible, and highly durable solution for protecting roof drain outlets from debris and blockages. These guards are engineered for quick and universal installation, eliminating costly and time-consuming custom fitting.

Key Features:

- Features sturdy cast-aluminum dome and stainless steel hardware (18" dome is cast iron)
- Choice of 5 Drain Guard diameters, 5", 8", 10", 13", and 18"
- Fits most drain outlets from 3" to 8" ID
- Installs quickly & easily without tools
- Simply turn the strainer to expand the scissors to tighten within drain

Installation Instructions:

- Turn strainer to expand scissors to approximately the inside diameter of the existing drain
- Insert unit in drain, positioning it so the bottom of the strainer is just above the surface of the roofing material
- Turn the strainer to further expand the scissors, until tight

BEFORE EXPANSION

SCISSORS EXPAND TIGHT TO INSIDE OF DRAIN

DRAIN GUARD OPTIONS
